**Question:** For everyone that gave this hoverboard 4 to 5 stars, how long have you been using it without any problems?

**Answer:** 6 months. Daily use on hard surfaces and grass, no issues. Good power, good app, great batteries. If you want the best, stop here. This board is not a toy! Well build, and can easily handle a seat attachment. Rides higher than most other boards.

**Question:** What app to download? and from where? looked on android play store, and didn't find anything with the name gyroor. also, some of the answers regarding app are confusing -- some say it works with app, other say it doesn't.

**Answer:** Hello, thanks for your question. Gyroor new version hoverboard with app is on sale now, and the app name called Gyroor, it can be downloaded at smartphone store or scan the QR code at the back of the user manual.

**Question:** Why does my G2 only charge for 30 min before the charging pack says it is fully charged but the led lights are red when riding?

**Answer:** Does it still last long when riding? My son's does that but I notice that it's blue on one side and red on a other. I dont think it has to do with the charge.... His lasts several weeks before needing to recharge. He just rides off and on, not long rides.

**Question:** is this hoverboard FAA compliant, can it be shipped or carried aboard a commercial aircraft?

**Answer:** no hoverboard can be carried on an aircraft. EVEN if the battery power is below TSA and FAA regulation they all say the same thing "it down to the individual airline". The airlines say specifically no hoverboards. I wrote this: <https://thetechguy.com/can-travel-flight-electric-skeateboard/>

★★★★☆ **Great Product**

Reviewed in the United States on November 27, 2018

Color: black | **Verified Purchase**

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board if pretty great.

We got this for our 13 yr old daughter! We love the app you can download on your smartphone. The app has a self balancing mode, adult mode, you can set the speed limit, change LED lights, shut the hoverboard down and a few other functions. We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!

★★★★★ **Best Hoverboard on the market**

Reviewed in the United States on September 12, 2018

Color: black | [Verified Purchase](#)

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P.s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

★☆☆☆☆ **Problems with Shaking and stopping**

Reviewed in the United States on October 9, 2018

[Verified Purchase](#)

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

★★★★★ **Super fun!**

Reviewed in the United States on August 9, 2018

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!
